

# Welcome to \$napshot.

The easy way to track your finances. Start today in your Online Banking.

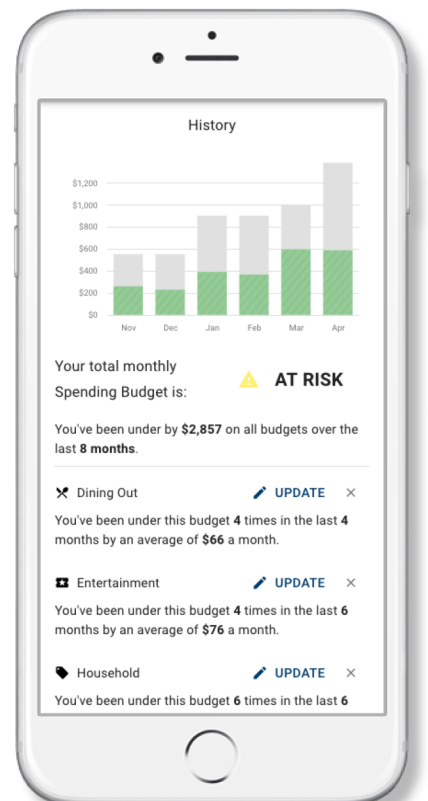

## Interactive Spending Wheel

View your top expenses in real-time. Click the center to **see a list of transactions from each category**, to stay in touch with your spending and overall finances.

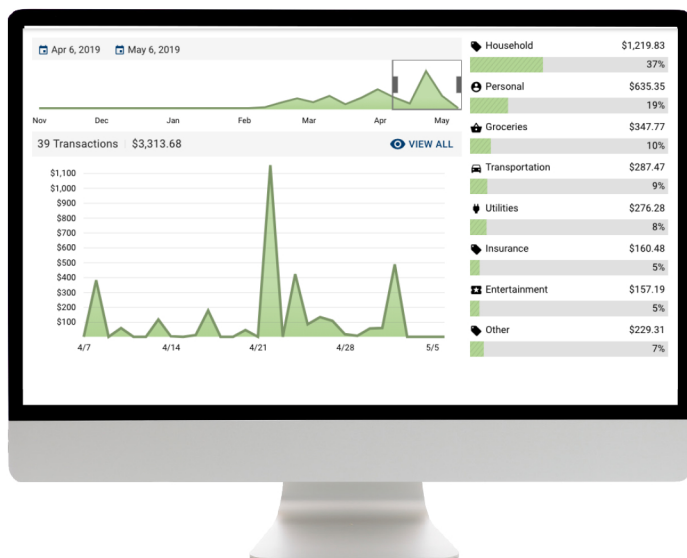

## Easy Budget Tools

Build and view spending targets that are important to your financial big picture. The new **insights feature provides your spending history**, along with suggestions for staying on track.

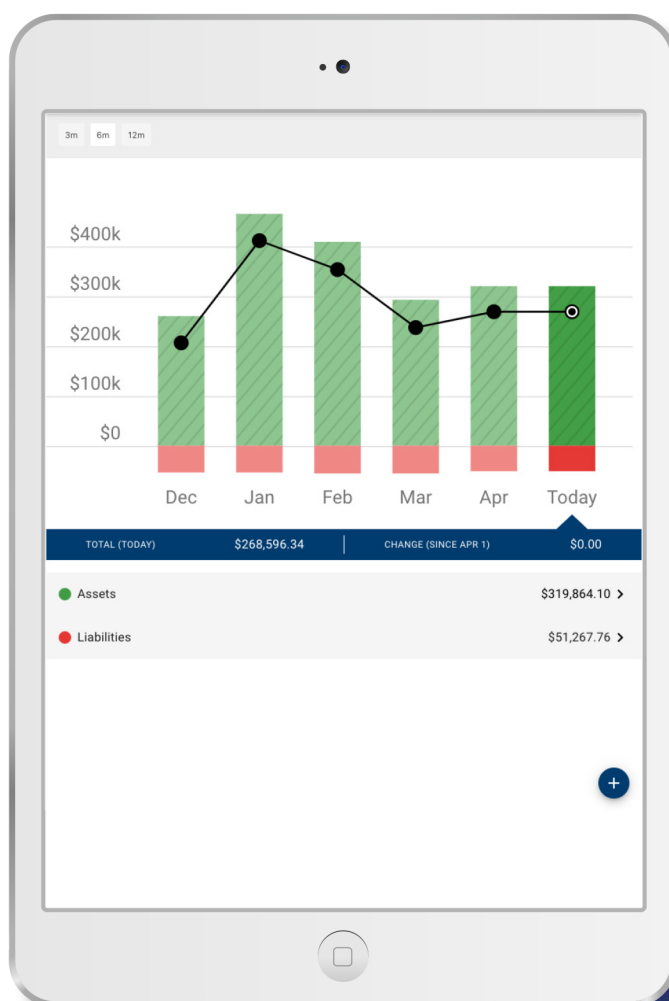

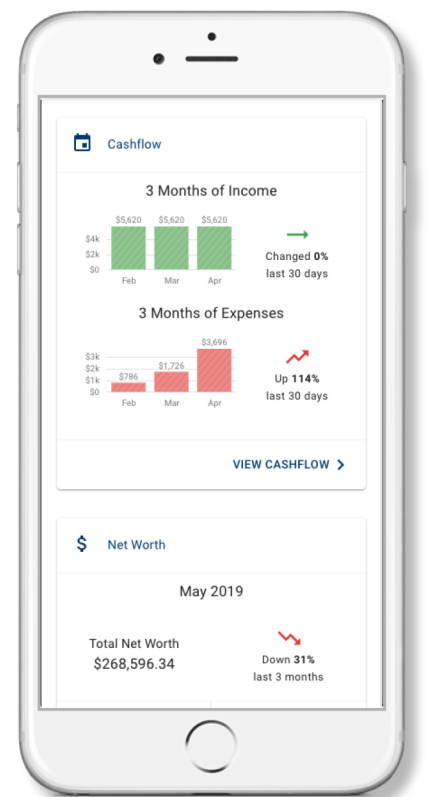

## Spending At a Glance

The analyzer **quickly shows your percentage and total amount spent in each category**; while allowing the user to customize the date range to identify any trends.

## Cash Flow Control

By adding your paychecks and expenses, you're now able to **view income and spending trends** right from the dashboard. The better you understand your cash flow, the easier it is to manage it on a daily, weekly and monthly basis.

## Net Worth Snapshot

Track your investments, wealth and debts all in one place; while having **access to monthly, quarterly, and annual trends**. Your financial future is just as important as your day-to-day.
